

Create the first draft of a data dictionary - Please See Attached File

1. **Take a moment to examine your ERD. Does the Rockbuster database have a snowflake schema or a star schema?** This type of ERD file would be classified as a simple schema since it does not have one main focal table in which it branches off to. However, it is formatted to be linked together by common identifiers throughout the chart.
2. Data Dictionary PDF is attached
3. **Which actors brought Rockbuster the most revenue?**
 - a. Payment
 - b. Actor/Film
- **What language are the majority of movies in the collection?**
 - a. Language
 - b. Inventory
